Session 93: Consciousness States. Projections, Nature of Consciousness

(This is possibly a continuation of IMEC 92. It does not have a starting point or a question prior to the beginning.)

Starts talking about the channeling process, as the entity uses the energy of the vocal cords, and that there is a participation of the channel as well, it is a kind of awakening.

10:19. A question comes, by the monitor. “if the entity feels being a person with a body while using the vocal cords of the channel?”
32:28 next question about Course of Miracles.
54:47 next question about projections and perceiving,
Nature of physical reality.

Report by Adriana Herbandez
